

[BACK TO TABLE OF CONTENTS](#)

Profit/Hour: Varies

Experience/Hour: 13,000-72,000 in Magic

◀ OVERALL INFORMATION ▶

In this guide, I'll be showing you the fastest way to make spell tablets. Because of high demand for a fast 1-click teleport, this is also one of the most profitable ways of training

Magic in RuneScape. You will need at least an Oak Lectern and a Butler in your House.

◀ REQUIREMENTS ▶

Requirements - High Recommendations - Recommendations

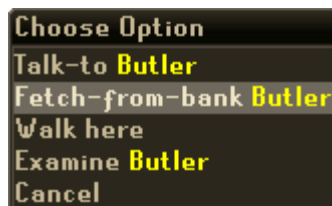

- **Level 7+ Magic**
- **Oak Lectern or higher (Level 40 Construction)**
- **Butler in your House**
- **Large amount of cash to buy supplies (200K+)**
- **Level 25+ Magic**
- **Level 47+ Construction**

NOTE: Magic level and Lectern requirements differ with each spell; please read below.

◀ METHOD ▶

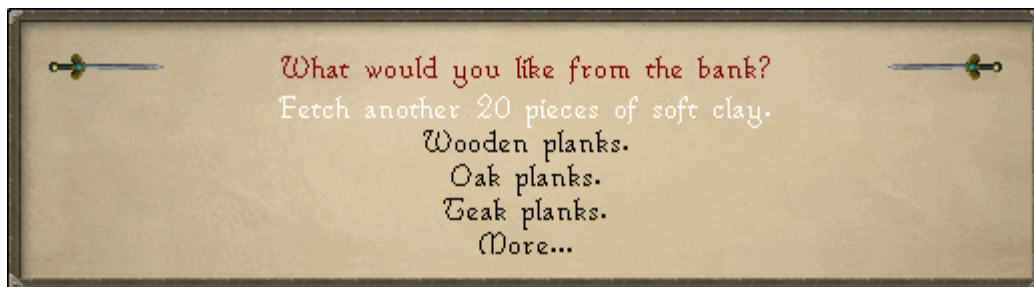

Start at the GE. You must first decide what spell you're planning to make tablets of. Keep in mind that a teleport tablet requires the Magic level needed to regularly cast the spell, the runes needed to cast it, and a piece of soft clay. A staff or combination staff is needed as well. Keep in mind that you'll be making around a 750 tablets an hour with this method, so buy accordingly.

Once you have your supplies, withdraw all the runes you're going to be making tablets of, wield your staff, and make sure that you have your Soft Clay in your bank, **not** noted in your inventory. Once you have all these done withdraw 1 Law and 1 Dust Rune to teleport to your House, and fill the rest of your inventory with Soft Clay. Once you get to your House, find your Butler and right-click on him. Select the "Fetch-from-bank" right-click option.

Tell your Butler that you want him to fetch Soft Clay, and 20 of it. Now run to your Lectern and start making tablets of the spell you have chosen to make. When your Butler will arrive, he will automatically refill your inventory full of Soft Clay, and keep any that you do not have space for. Start making tablets again, and when you have enough space in your

inventory for the Soft Clay your Butler has kept for you, click on him. Keep making Spell Tablets until you have only 2 left in your inventory. Right-click your Butler “Fetch-from-bank” as you did before, then choose the option below.

As soon as you're done making your two spell tablets, your Butler will return with 20 more Soft Clay. Continue for as long as you wish.

I have created an advanced spreadsheet [here](#) to help you decide which spell tablet to make. Also below is a table on each Lectern's spell tablet capability.

Lectern Name	Construction Level	Spell Tablet Capability
Oak	40	Sapphire Enchant • Varrock Teleport
Eagle	47	Sapphire Enchant • Varrock Teleport Lumbridge Teleport • Falador Teleport
Demon	47	Sapphire Enchant • Bones to Bananas Varrock Teleport • Emerald Enchant
Teak Eagle	57	Sapphire Enchant • Bones to Bananas Varrock Teleport • Emerald Enchant Camelot Teleport • Ardougne Teleport
Teak Demon	57	Sapphire Enchant • Bones to Bananas Varrock Teleport • Emerald Enchant Ruby Enchant • Diamond Enchant
Mahogany Eagle	67	Sapphire Enchant • Varrock Teleport Lumbridge Teleport • Falador Teleport Teleport to House • Camelot Teleport Ardougne Teleport • Watchtower Teleport
Mahogany Demon	67	Sapphire Enchant • Bones to Bananas Varrock Teleport • Emerald Enchant Ruby Enchant • Diamond Enchant Bones to Peaches • Dragonstone Enchant Onyx Enchant
